DETAILED ACTION

Response to Amendment

1. In response to applicant's amendment filed 9/23/03, claims 1-3, 23, 26, 31, have been amended, claims 34-36 added and claims 5-9 and 25 canceled.

Response to Arguments

2. Applicant's arguments filed 9/23/03 have been fully considered but they are not persuasive. Applicant argued the following:

“Sasaki does not teach or suggest a first mark and a second mark which are both on the laser diode chip, and a second mark which is positioned oppositely to a substrate-side mark formed on the substrate.”

In response, it is noted that it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987). Since claim 1 relates to a chip (see line 1) and since the recitations of a substrate (see line 3 and lines 5-6) to which the chip is mounted clearly distinguish the substrate as an separate entity from the chip, the mounting of the chip to the substrate is viewed as an intended use and not a requirement of the claim. Further, regarding claim 31, the recitation that the chip is “to be mounted on a substrate for an optical module” has not been given patentable weight because it has been held that a preamble is denied the effect of a limitation where the claim is drawn to a structure and the portion of the claim following the preamble is a

self-contained description of the structure not depending for completeness upon the introductory clause. *Kropa v. Robie*, 88 USPQ 478 (CCPA 1951).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 and 31-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Sasaki (JP 09-145965-A). Sasaki discloses a semiconductor laser diode chip comprising a first mark (4a) and a second mark (5).

It is noted that it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987). Since claim 1 relates to a chip (see line 1) and since the recitations of a substrate (see line 3 and lines 5-6) to which the chip is mounted clearly distinguish the substrate as an entity from the chip, the mounting of the chip to the substrate is viewed as an intended use and not a requirement of the claim.

Regarding claim 31, the recitation that the chip is “to be mounted on a substrate for an optical module” has not been given patentable weight because it has been held that a preamble is denied the effect of a limitation where the claim is drawn to a structure and the portion of the claim following the preamble is a self-contained

description of the structure not depending for completeness upon the introductory clause. *Kropa v. Robie*, 88 USPQ 478 (CCPA 1951).

Allowable Subject Matter

5. Claims 21-23, 26-30 are allowed.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
